

4004/ 90 Day

Placement Considerations

Silty Loam	9
Clay	8
Sand	8
Narrow rows	8
Corn After Corn	7
No Till	8

- **Works across all yield environments**
- **Narrow row planting option that performs well at medium to high densities**

Agronomic Highlights

Emergence	8
Early Vigor	8
Stalk Strength	8
Root Strength	7
Stay Green	7
Ear Type	S-FL

- **Strong emergence and early vigor for reduced or no till options.**
- **Great disease package to protect the upper end yield potential**

Management Notes

Dry Down	8
Drought Tolerance	8
Test Weight	8
Fungicide Response	8
Silage	7

- **Best to plant on rotated fields**
- **Harvest on time.**

Disease Tolerance

Northern Leaf Blight	8
Gray Leaf Spot	8
Goss' Wilt	8

Special Features

- ✓ Identity Preserved Production
- ✓ Untreated Seed Available
- ✓ Plant Height Medium
