

4503/ 95 Day

Placement Considerations

Silty Loam	8
Clay	7
Sand	7
Narrow rows	7
Corn After Corn	8
No Till	7

- **Moves South well for its maturity.**
- **provides consistent yields**

Agronomic Highlights

Emergence	8
Early Vigor	8
Stalk Strength	7
Root Strength	7
Stay Green	7
Ear Type	S-FL

- **Solid emergence and early vigor ratings**
- **Excellent standability with strong stalks and roots**

Management Notes

Dry Down	7
Drought Tolerance	7
Test Weight	7
Fungicide Response	9
Silage	5

- **Excellent standability with strong stalks and roots.**
- **Keep populations medium-high for top performance.**

Disease Tolerance

Northern Leaf Blight	7
Gray Leaf Spot	7
Goss' Wilt	7

Special Features

- **✓ Identity Preserved Production**
- **✓ Untreated Seed Available**
- **✓ Plant Height Medium Tall**
