

5203/ 102 Day

#### Placement Considerations

Silty Loam	9
Clay	9
Sand	9
Narrow rows	6
Corn After Corn	7
No Till	8

- **Strong yield across years and environments**
- **Adaptable across both high, medium, and low yield environment.**

#### Agronomic Highlights

Emergence	8
Early Vigor	7
Stalk Strength	8
Root Strength	8
Stay Green	7
Ear Type	FL

- **Excellent stock and root rating**
- **Medium low green snap risk**

#### Management Notes

Dry Down	7
Drought Tolerance	8
Test Weight	7
Fungicide Response	9
Silage	8

- **Strong response to fungicide applications**
- **Good choice for both grain and silage**

#### Disease Tolerance

Northern Leaf Blight	8
Gray Leaf Spot	7
Goss' Wilt	8

#### Special Features

- **✓ Identity Preserved Production**
- **✓ Untreated Seed Available**
- **✓ Plant Height Medium Tall**
