

5653/ 106 Day

Placement Considerations

Silty Loam	9
Clay	9
Sand	7
Narrow rows	8
Corn After Corn	8
No Till	8

- **Excellent for high and medium yield environments**
- **Keep in zone and north for best performance**

Agronomic Highlights

Emergence	8
Early Vigor	8
Stalk Strength	8
Root Strength	7
Stay Green	8
Ear Type	Girthy

- **Good tolerance to both high and low populations ranges**
- **Nice fall appearance and stay green ratings**

Management Notes

Dry Down	7
Drought Tolerance	7
Test Weight	6
Fungicide Response	8
Silage	7

- **Manage for gray leaf spot**
- **Does well in no-till and cover crop**

Disease Tolerance

Northern Leaf Blight	8
Gray Leaf Spot	7
Goss' Wilt	8

Special Features

- **✓ Identity Preserved Production**
- **✓ Untreated Seed Available**
- **✓ Plant Height Medium Tall**
