

6494/ 114 Day

Placement Considerations

Silty Loam	8
Clay	8
Sand	7
Narrow rows	8
Corn After Corn	8
No Till	8

- Push this one for top end yield

- Works on silty loam and clay soils

Agronomic Highlights

Emergence	8
Early Vigor	8
Stalk Strength	8
Root Strength	8
Stay Green	8
Ear Type	FL

- Excellent test weight

- Very strong emergence and early vigor

Management Notes

Dry Down	7
Drought Tolerance	7
Test Weight	7
Fungicide Response	7
Silage	1

- Best at moderate populations

- Stands well into harvest

Disease Tolerance

Northern Leaf Blight	7
Gray Leaf Spot	8
Goss' Wilt	8

Special Features

- ✓ Identity Preserved Production

- ✓ Untreated Seed Available

- ✓ Plant Height Tall
