

## Kentland Seeds | Hybrid G7157 | RM 107 HYBRID

### About the Product

- Mid-season glyphosate tolerant hybrid ideal for your corn after corn acres.
- Exceptional drydown and dependable agronomics.
- Treated with CruiserMaxx Vibrance.

### Crop Protection Suggestions

- This hybrid offers tolerance to glyphosate herbicide applications.
- Gain beneficial ROI with a timely fungicide application.
- In typical season, expect rapid drydown and prioritize harvest.

### Soil Performance

|            |   |
|------------|---|
| Silty Loam | 9 |
| Clay       | 8 |

### Management Ratings

|                 |   |
|-----------------|---|
| Narrow Rows     | 7 |
| Corn After Corn | 8 |
| No Till         | 8 |
| Higher Pops     | 7 |
| Silage          | 7 |

### Plant Stats

|                |   |
|----------------|---|
| Emergence      | 7 |
| Early Vigor    | 8 |
| Stalk Strength | 7 |
| Root Strength  | 8 |
| Stay green     | 7 |

### Stress Tolerance

|                |   |
|----------------|---|
| Drought        | 7 |
| N. Leaf Blight | 7 |
| Gray Leaf Spot | 8 |
| Goss Wilt      | 8 |

### Plant Features

|              |           |
|--------------|-----------|
| Height Range | Mid-Tall  |
| Ear Type     | Semi-Flex |
| Test Weight  | 9         |
| Dry down     | 7         |
