

4817/ 98 Day NEW!

Placement Considerations

Silty Loam	8
Clay	8
Sand	9
Narrow rows	8
Corn After Corn	8
No Till	8

- Best performance on medium and lighter soils.
- Widely adapted east to west with very good stress tolerance.

Agronomic Highlights

Emerge	8
Early Vigor	8
Stalk Strength	7
Root Strength	9
Stay Green	8
Ear Type	FL

- Large flex style ear with small cob and very deep kernels.
- Medium tall hybrid with excellent root rating.

Management Notes

Dry Down	7
Drought Tolerance	8
Test Weight	7
Fungicide Response	7
Silage	9

- Very good resistance to Tar Spot.
- Recommend fungicide: if pressure is present.

Disease Tolerance

Northern Leaf Blight	7
Gray Leaf Spot	7
Goss's Wilt	8

Special Features

- ✓ Identity Preserved Production
- ✓ Untreated Seed Available
