

4633/ 96 Day

Placement Considerations

Silty Loam	9
Clay	8
Sand	7
Narrow rows	7
Corn After Corn	8
No Till	8

- Widely adapted and versatile hybrid to go across a wide range of soils.

- This hybrid has top end yield potential

Agronomic Highlights

Emerge	8
Early Vigor	8
Stalk Strength	8
Root Strength	7
Stay Green	8
Ear Type	S-FL

- Season long eye appeal combined with strong stalk and roots.

- Long greensnap risk

Management Notes

Dry Down	7
Drought Tolerance	8
Test Weight	7
Fungicide Response	7
Silage	8

- Very wide leaves for quick canopy

- Strong stalks and roots for an easier harvest

Disease Tolerance

Northern Leaf Blight	7
Gray Leaf Spot	7
Goss's Wilt	8

-Very good tar spot resistance

-Excellent Anthracnose resistance

Special Features
