

5789 /107 Day

Placement Considerations

Silty Loam	9
Clay	8
Sand	8
Narrow rows	8
Corn After Corn	8
No Till	8

- Consistent performance across yield levels

- This hybrid works east to west

Agronomic Highlights

Emerge	8
Early Vigor	7
Stalk Strength	8
Root Strength	8
Stay Green	8
Ear Type	S-FL

- This hybrid has standability plus.

- It works well at both high populations and low populations

Management Notes

Dry Down	8
Drought Tolerance	8
Test Weight	8
Fungicide Response	8
Silage	8

- Excellent drydown and yield/moisture ratio.

- Solid drought tolerance

-Very resistant to tar spots.

-Use fungicide in the presence of Southern Rust

Disease Tolerance

Northern Leaf Blight	8
Gray Leaf Spot	7
Goss's Wilt	8

Special Features

- ✓ Identity Preserved Production

- ✓ Untreated Seed Available

- ✓ Plant Height Medium Tall
