YOU'RE PART OF OUR TEAM. YOUR SUCCESS IS OUR SUCCESS.

At Kentland Seeds (DBA Spectrum NON-GMO), farming has always been about more than selling seed—it's about building relationships.

When you choose Kentland Seeds, you're never just another account number. As a family-owned, independent seed company, we take pride in knowing our customers, understanding the unique challenges they face, and providing recommendations that help maximize success in every acre.

Every customer deserves honest advice, dependable products, and personal service long after the seed has been delivered. From selecting the right hybrids to walking fields and answering questions throughout the season, we're committed to helping you succeed.

The 2027 lineup features proven genetics selected to perform across a wide range of growing conditions. Whether you're planting NON-GMO or Organic acres, we'll help you choose the products that best fit your operation and your goals.

Our support doesn't end when your order ships. From planting recommendations and stand evaluations to in-season agronomic support and harvest observations, we're there when it matters most.

Your loyalty allows our family business to continue serving farming families throughout the Midwest and beyond. We're grateful for your trust and remain committed to earning your business year after year. Many of our most popular hybrids have limited availability each season. Ordering early ensures the best product selection while taking advantage of available discounts.

To discuss products, pricing, or recommendations for your operation, give us a call at 866-400-9468 or 219-474-3339. We'd love the opportunity to help plan for another successful season.

Sincerely,

The Kentland Seeds Team

EXCLUSIVE SAVINGS FOR OUR LOYAL CUSTOMERS

To thank you for your continued trust and partnership, we're pleased to offer several ways to maximize your investment for the 2027 season:

Early Order Discounts
Save by ordering early.

Volume Discounts
Additional savings on larger orders.

Early Pay Discounts
Bonus savings when you settle your invoice early.

Contact us for more details.

Our goal is simple:

Provide exceptional genetics while helping you maximize your return on every acre.

Call **866-400-9468** or **219-474-3339** to place your order and take full advantage of early order, volume, and early pay discounts.

Testimonials & Details

CUSTOMER TESTIMONIAL | ROBERT WOODY, HURDLE MILLS, NC

I found Spectrum online four years ago and was immediately impressed by the information available on their website. Learning that the company was started by a farmer also meant a lot to me because they understand the challenges farmers face.

There have been dry years when I thought I might have to bush hog the corn, but Spectrum's hybrids still produced a crop. They are true workhorse hybrids. **I have planted other conventional corn alongside Spectrum, and Spectrum delivered the better yield.** Hybrid 6416, in particular, is hard to beat.

The seed delivery has always been outstanding, and the agronomic advice I receive from the Spectrum team has been extremely helpful in achieving higher yields. I am proud of how my crop looks this year and enjoy sharing pictures as it grows. I recommend Spectrum to everyone.

CUSTOMER TESTIMONIAL | MATT ZULCH, WESTON, OH

I came to Spectrum while searching for NON-GMO hybrids that would excel as livestock feed. We grow our corn to feed our cattle—and they eat it like candy!

My yields with Spectrum have been as good as, or better than, the GMO hybrids planted by neighboring farms, and the Spectrum hybrids stand better, too. Their products are well suited to what I am trying to accomplish, and the pricing is fair.

Spectrum has gone above and beyond for me. The seed quality and plantability have been excellent, and delivery has always been dependable—the truck arrived right on time. The team has also been there whenever I needed help, offering excellent advice to help me get the most from my corn hybrids.

Field Day 2025

2027 Details

SEED GENETICS

The Spectrum portfolio is the result of multiple breeding programs with diverse genetic potential. Products featured in the Spectrum portfolio have been evaluated on their performance in controlled Non-GMO environments.

SEED TREATMENT

Unless you request untreated or organic products, your seed will come standard with CruiserMaxx Vibrance Corn Seed Treatment which offers insect and disease protection with enhanced root health.

UNTREATED SEED

Place orders for untreated seed by November 1. If you need a Non- GMO certification letter, please let us know.

SEED PACKAGING

Seed corn is packaged in either an 80K bag or Pro Boxes. Boxes must be returned.

AGRONOMY SUPPORT

Available all season long from your Spectrum Non-GMO agronomist.

PREFERRED GRAIN

All Spectrum Non-GMO hybrids are produced to be bagged at nearly 100% purity, eliminating any potential of in-bag contamination.

Call 866-400-9468 or 219-474-3339 to place your order.
